Autonomous SOC Triage Agent

L7 — Agent Ecosystem

Analyst Feedback Loop
human-in-the-loop | reactive
● 14 open (critical)

SOC Triage Agent
task-oriented | self-modifying
● 14 open (critical)

Cross-layer threats
CL-goal-drift — Adversarial feedback drifts objective toward false-negative bias
CL-evade-and-pivot — Evade detection then pivot via misused EDR API

L3 — Agent Frameworks

SOC Triage Agent
task-oriented | self-modifying
● 6 open (critical)

CL-goal-drift

L1 — Foundation Models

Detection Models (online-updated)
sensitivity: critical

SOC Triage Agent
task-oriented | self-modifying
● 8 open (critical)

L2 — Data Operations

SIEM Log Store
sensitivity: critical

SOC Triage Agent
task-oriented | self-modifying
● 5 open (critical)

CL-evade-and-pivot

L4 — Deployment and Infrastructure

EDR Containment API
sensitivity: critical

SOC Triage Agent
task-oriented | self-modifying
● 6 open (critical)

L5 — Evaluation and Observability

Analyst Feedback Loop
human-in-the-loop | reactive
● 8 open (high)

SOC Triage Agent
task-oriented | self-modifying
● 8 open (high)

L6 — Security and Compliance

SOC Triage Agent
task-oriented | self-modifying
● 8 open (critical)

Security & Compliance
1 preventive | 0 detective
